ILYUSHIN FINANCE CO.

ABOUT US

ILYUSHIN FINANCE is a dedicated aviation lessor which seeks new opportunities within global markets with game-changing products and financing.

We are a team of professionals with unique skills in finance, marketing, engineering, fleet planning, asset management, MRO and procurement.

Together with years of experience, this all is being brought to the service of the airlines.

WHY OPERATING LEASE FROM ILYUSHIN FINANCE

We believe that with Bombardier's new CSeries aircraft that change really is in the air. That is why ILYUSHIN FINANCE has firmed an order for 32 CS300s (plus ten options) to bring to operators around the globe not only the most exciting aircraft yet developed, but also the most cost effective operating lease solutions available today.

ILYUSHIN FINANCE has been able to negotiate excellent acquisition terms and is now in a favorable position to offer the entire fleet, or large parts thereof, to an operator on an operating lease basis.

ILYUSHIN FINANCE Total Lease Fleet Solution is offered along with supporting concessions and discounts incorporated within the lease package as a result of ILYUSHIN FINANCE being an early committed lessor. This adds up to a seriously advantaged value proposition for any lessee, especially when blended together with ILYUSHIN FINANCE flexible leasing solution.

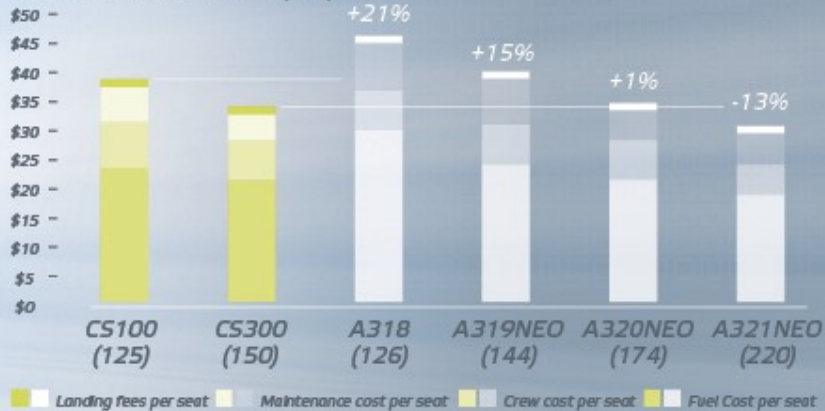

CS DELIVERY SCHEDULE

WHY CSERIES?

UNMATCHED ECONOMIC PERFORMANCE AND GREATER PROFIT POTENTIAL

Cash Operating Cost per Seat (USD)

The CSeries is a brand new aircraft with new design engineering, resulting in operational performance never seen before. With the CSeries, Bombardier is once again breaking new ground, this time into the narrow body market (CS300 – with up to 160 seats at 5 abreast) and again in the regional space (CS100 up to 125 seats again at 5 abreast), a world beater in every way.

There is no question that CSeries in both its target markets will be successful for operators and lessors alike.
